The Nintex
Workflow Platform

NINTEX®

Quick and Easy Workflow Automation

Connected to today's most used content and collaboration solutions, Nintex helps you automate processes to meet your business needs.

Everyone in your organization, from business users to IT professionals, can use the Nintex workflow automation platform to automate processes, from simple leave approvals to complex business operations. Create streamlined workflows in every department of your organization, and you'll save time, cut costs, ensure compliance, increase accuracy and avoid headaches.

- Leverage your existing investment in Microsoft SharePoint and Office 365
- Automate processes in minutes without any coding
- Create and deploy workflow solutions that are mobile- and cloud-friendly

Workflow for Everyone®

Easy to deploy, easy to design, easy to use

With Nintex, you can start optimizing your processes as soon as you deploy. Create simple workflows in minutes, deploy them with one click, and realize business value immediately.

Evolve your workflows as often as you need

Your workflows change all the time – 67% of process change every six months, and one in 10 companies change processes daily. Nintex makes it easy to build a solution fast and then improve as you go.

Anywhere, anytime access to your processes

Your workflows aren't confined to the office or to regular business hours. With Nintex, you have access to your processes and forms from popular mobile platforms and devices.

Seamless connectivity to all of your applications

Make your workflows more effective and efficient by connecting all of your disparate systems. Nintex helps your processes transcend silos, on-premises and in the cloud.

Workflow Drives Results

"It's faster than ever for us to create a workflow and publish."

Build Workflow Solutions with Nintex

Only Nintex provides you with the ability to quickly and easily build and deliver workflow solutions for your entire organization.

With Nintex, you can automate your processes, integrate your workflows with your line-of-business applications and cloud services, and bring together your people, processes and content. The savings and efficiency will add up with every workflow solution.
CONNECT YOUR PEOPLE, PROCESSES AND CONTENT

Power your business with the perfect fusion of people, processes and content.

People.
Give employees the ability to tackle important projects, breeze through their to-do lists and better serve customers.

Processes.
Automate your time-consuming, everyday processes and create streamlined workflows in every department.

Content.
Connect your processes to your content – whether in the cloud or on-premises – and benefit from seamless integration.

Deliver Quick ROI Workflow Solutions to:

SEND NOTIFICATIONS

APPROVE REQUESTS

Review and approve
important reports
and requests

MANAGE CONTENT

Create, update
and publish content

People
Provide Great User Experiences

Deliver workflow solutions by adding a user-interface layer to your processes with Nintex Forms.
Nintex Forms is a web-based designer that enables you to publish web forms for use by anyone inside and outside of your organization. You can design your forms once and deploy them simultaneously to multiple devices and form factors–PCs, mobile phones, and tablets.

PROVIDE FORMS-DRIVEN WORKFLOW SOLUTIONS:

- Transform workflows into business applications with rich user experience
- Design once and publish to browsers and mobile applications
- Interact with key business processes whether online or offline
- Deliver data-rich forms by connecting with data bases, business applications and cloud services
- Build custom-branded, native mobile apps on the most popular platforms in a few clicks

Nintex Mobile

Processes
Design and Manage Processes

Bring efficiency to every corner of your organization with Nintex Workflow by automating the ad hoc, everyday processes that are often overlooked by other business systems.
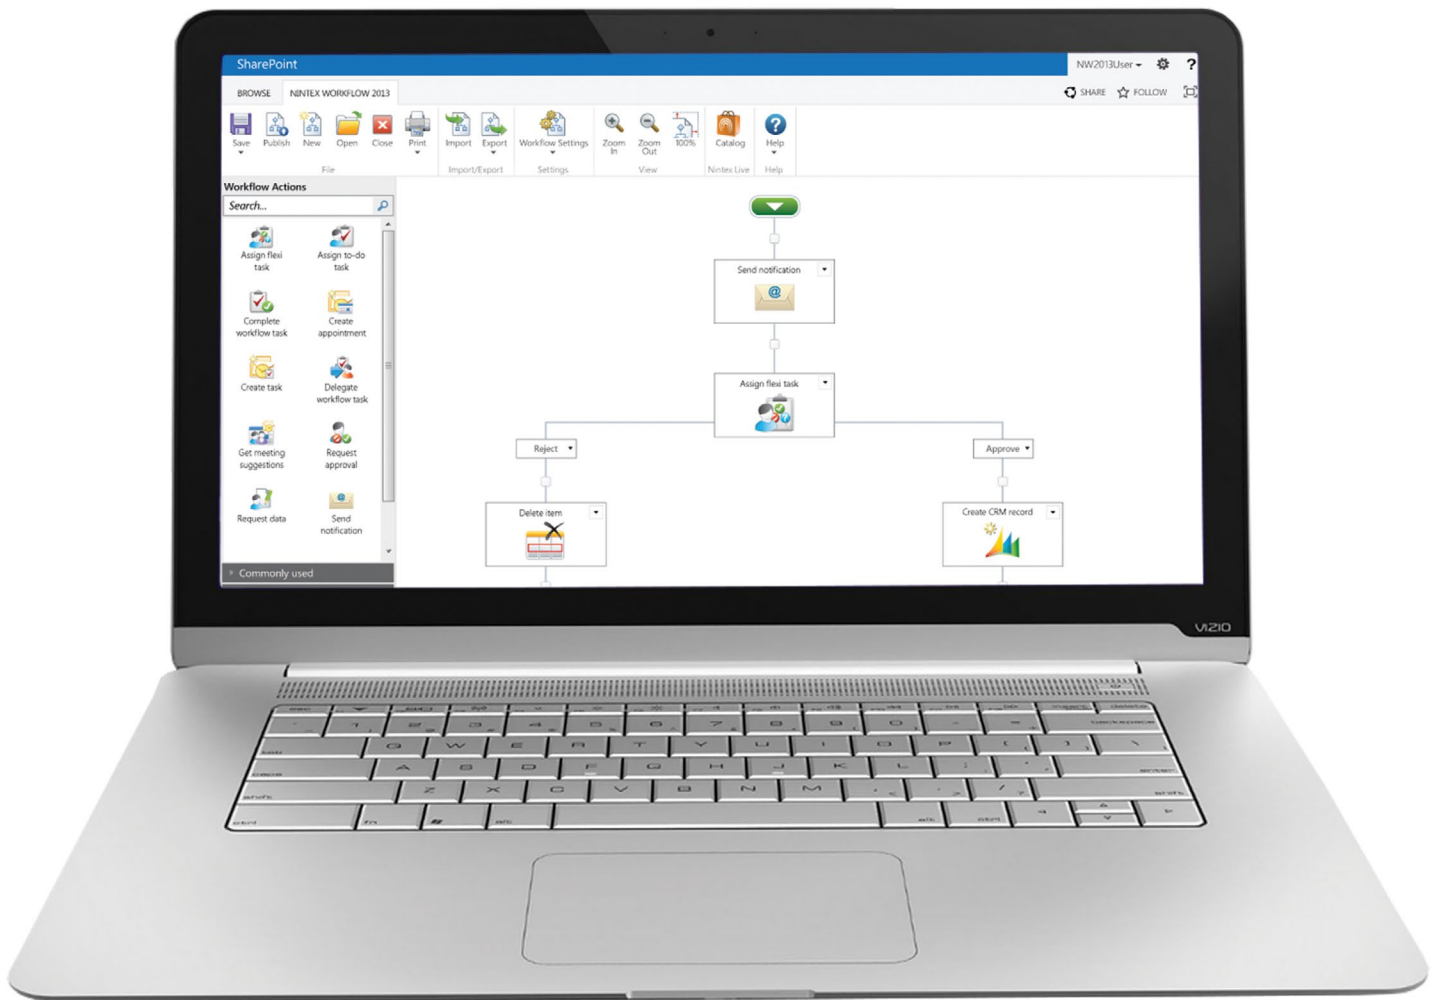

With Nintex Workflow, your business users and IT pros are empowered to automate business processes, from simple leave requests to complex integrations that span external systems, cloud services and data sources.

START EASILY

Get up and running quickly, automating everyday processes like requesting reviews and approvals, routing tasks, and collaborating on documents.

SCALE QUICKLY

Build powerful, enterprise-wide workflow solutions that are mobile, social and cloud-enabled, without breaking your budget.

Nintex Workflow

Content
Connect with Your Content

Our catalog of no-code connectors helps you connect to your LOB applications and cloud services without the need for any third-party integrations.

Using our connectors, you can create, read, update, and delete content depending on the needs of your process.

NINTEX PROVIDES PRE-BUILT CONNECTORS TO:

- Amazon Web Services
- Bing
- Bitly
- Box
- CoSign
- DocuSign
- Dropbox

- Dynamics CRM
- Exchange Online
- Facebook
- Google Drive
- LinkedIn
- MailChimp

- Rackspace
- Salesforce
- StrikeIron
- Twitter
- WordPress
- Yammer

We regularly release new connectors. As well, our partners develop new connectors. Visit nintex.com for the latest list of connectors.

Your Workflow Platform

Nintex software and cloud services can be used as quick start, individual point initiatives. Or, they can be connected, delivering organization-wide workflow solutions.
